# *WHAT IS Bio Cellulose*

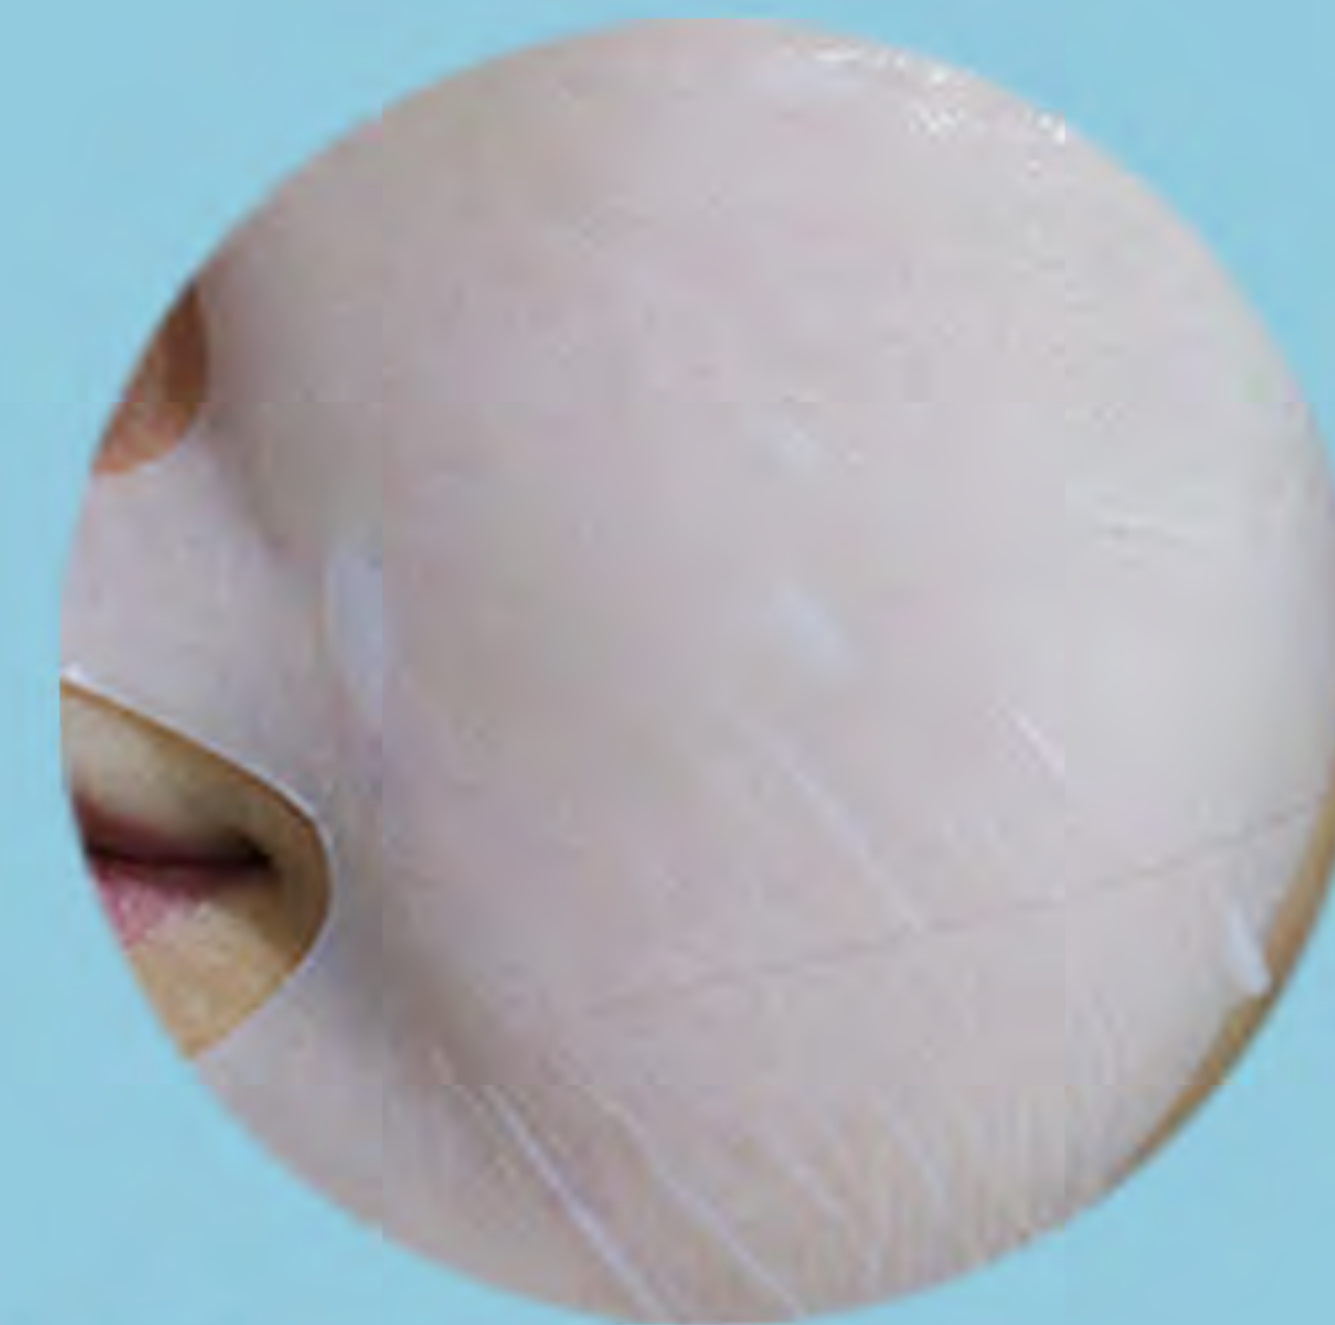

## Moisturize supply without gabs

The bio-cellulosic sheet, which has a remarkable adherence enough to be called the second skin, tightly adheres to the skin flexibly and effectively transfers the ampoule.

Good adhesion like second skin

## High absorbency

It boasts absorbency 10 times better than nonwoven fabric. It has dense network structure and fine texture, and contains many active elements.

## Plentiful high concentrate essence

Because of the water-soluble hydrogel mask pack contains high concentration essence, the pack is excellent in skin absorption and moisturizing power.

Please check out the Plentiful high concentrate essence!

## About E.G.F

### Discovery of EGF ( Epidermal Growth Factor)

Nobel Prize winning EGF skin regeneration program

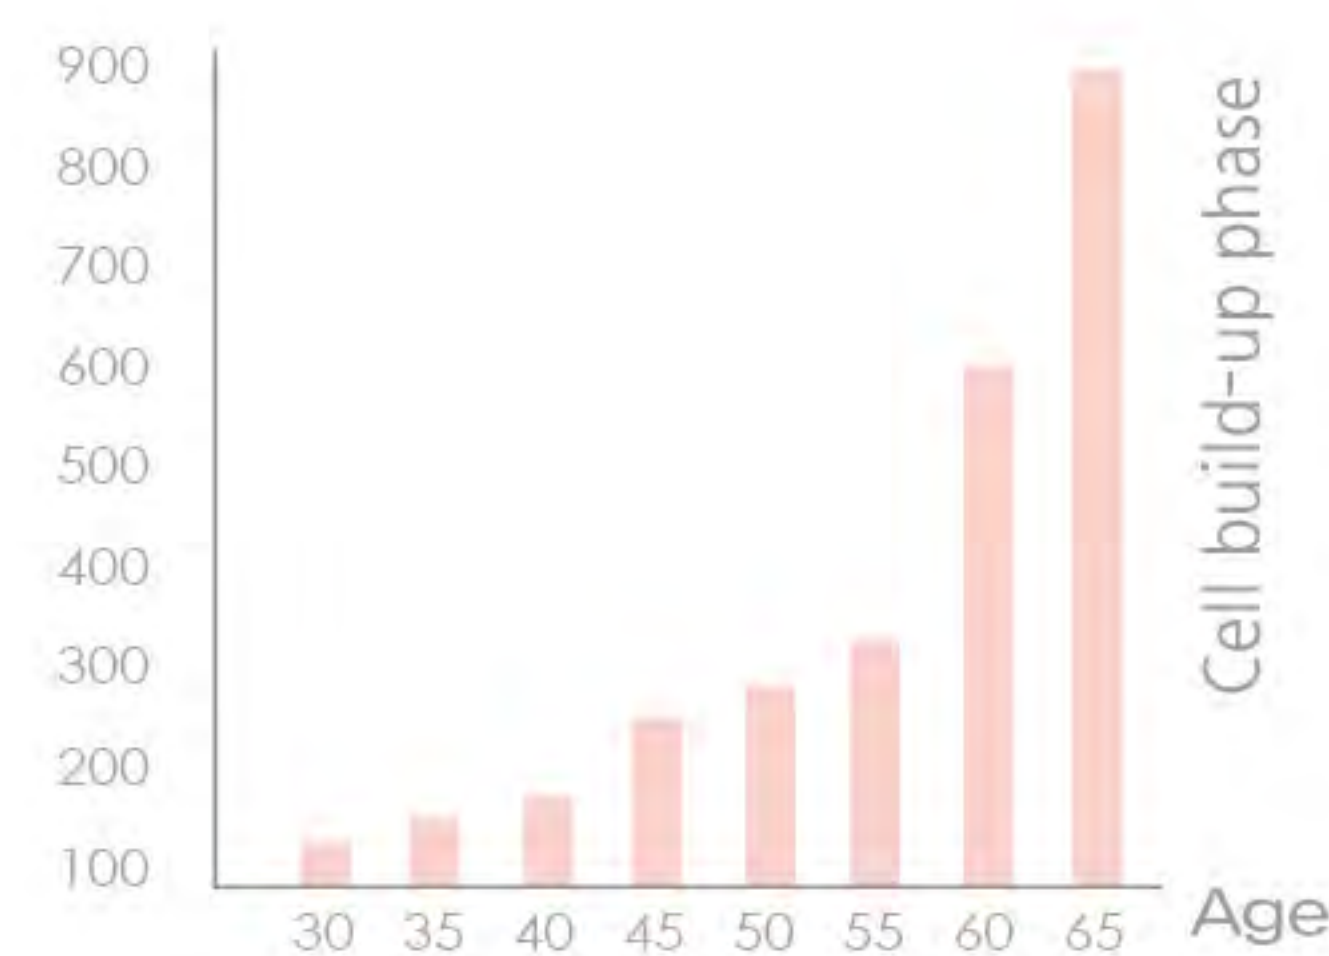

Dr. Stanley Cohen of the United States was awarded the 1986 Nobel Prize for Medicine by identifying the mechanism of EGF, an epithelial cell factor. EGF, called epithelial cell growth factor, is an element present in our body, which promotes cell regeneration and cell proliferation and stabilizes damaged skin.

\* Sources: [www.naver.com](http://www.naver.com)

\*The efficacy corresponds to the efficacy and effectiveness of the raw material itself.

## USE Patent Clinical test

<EGF를 60일 동안 사용한 뒤 신생 세포 증가 입증 자료>

The 60-day EGF clinical trial conducted by Dr. Brown in the United States shows that 60 days of continuous use of EGF-containing lotion for people over age 50 helped to improve skin.

Lotion with EGF (The amount of EGF added was  $0.1\mu\text{g} / \text{ml} = 0.0001\%$ , which showed an amazing 284% skin improvement effect on average than the lotion with no EGF added.

Data : US Patent # 5618544

## Cosmetics with high effectiveness even in a very small amount.

EGF is a highly effective cosmetic product in a very small amount, so the KFDA limits its content.

\* The efficacy corresponds to the efficacy and effectiveness of the raw material itself.

## WHITENING&WRINKLE SYSTEM

### *WHY?* *bio cellulose sheet?*

It is a pure natural coconut gel mask with containing EGF. It has almost no loss rate of essence by three-dimensional network structure, and also It has excellent skin adhesion to the curved skin, helping to maintain whitening nourishment and moisture long lasting.

STEP 1

STEP 2

STEP 3

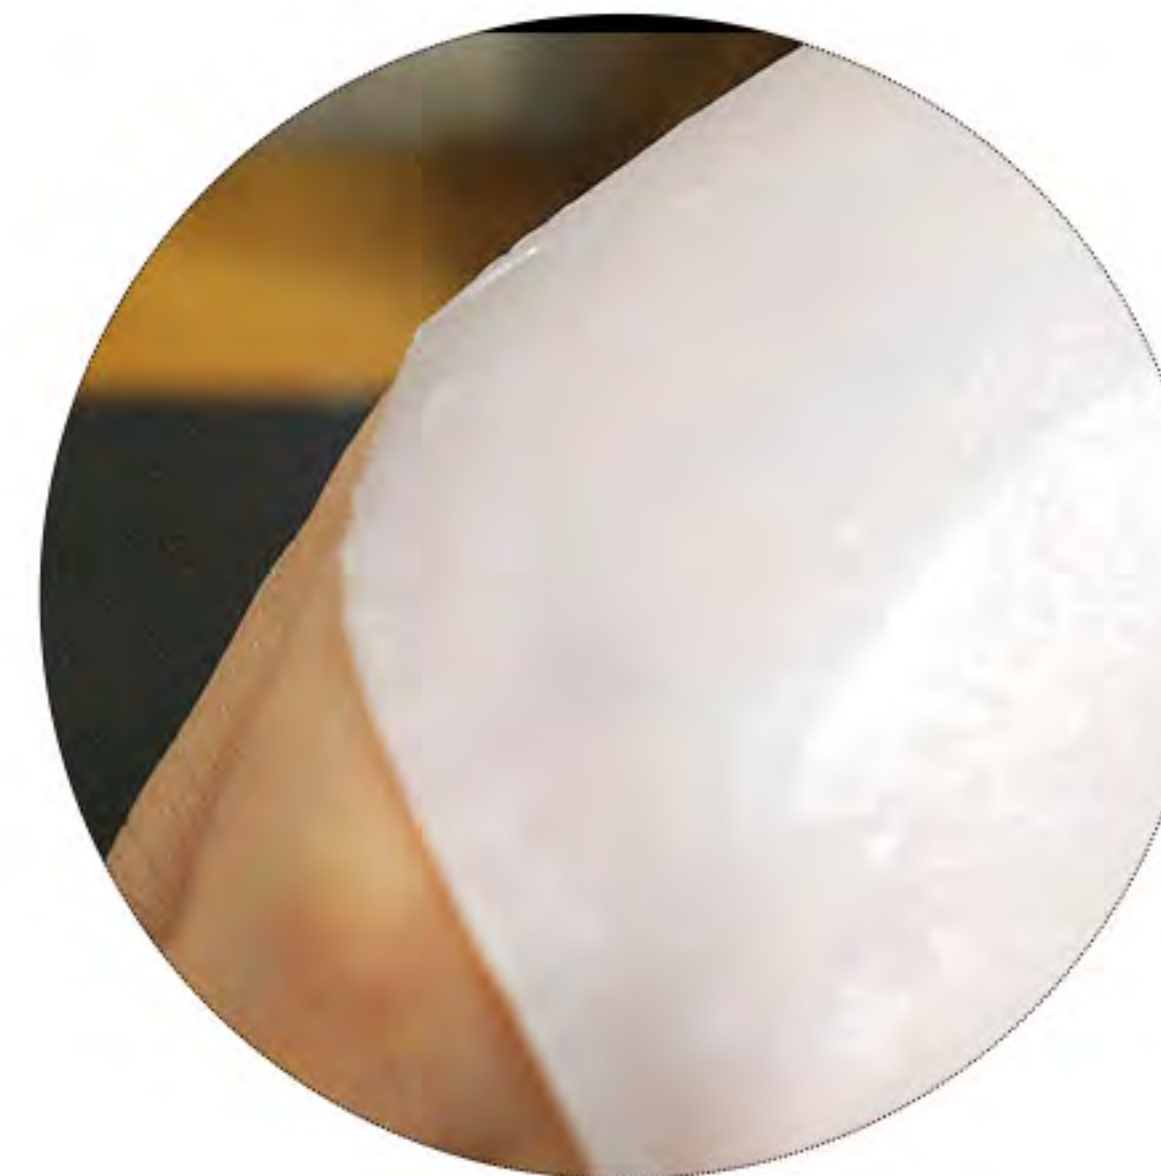

After wash your face, pulls out the sheet, adhered to the face well. After 10 to 20 minutes, remove the mask sheet and tap the remaining essence on the skin to absorb it.

# Nonwoven fabric **VS** Bio cellulose sheet

VS

General nonwoven fabric sheet

- ✓ Lack of skin adherence
- ✓ Essence ingredients are not absorbed evenly
- ✓ Have a little irritation to sensitive skin.

Persistence is short due to use of general non-woven type patch (Compared to our existing products)

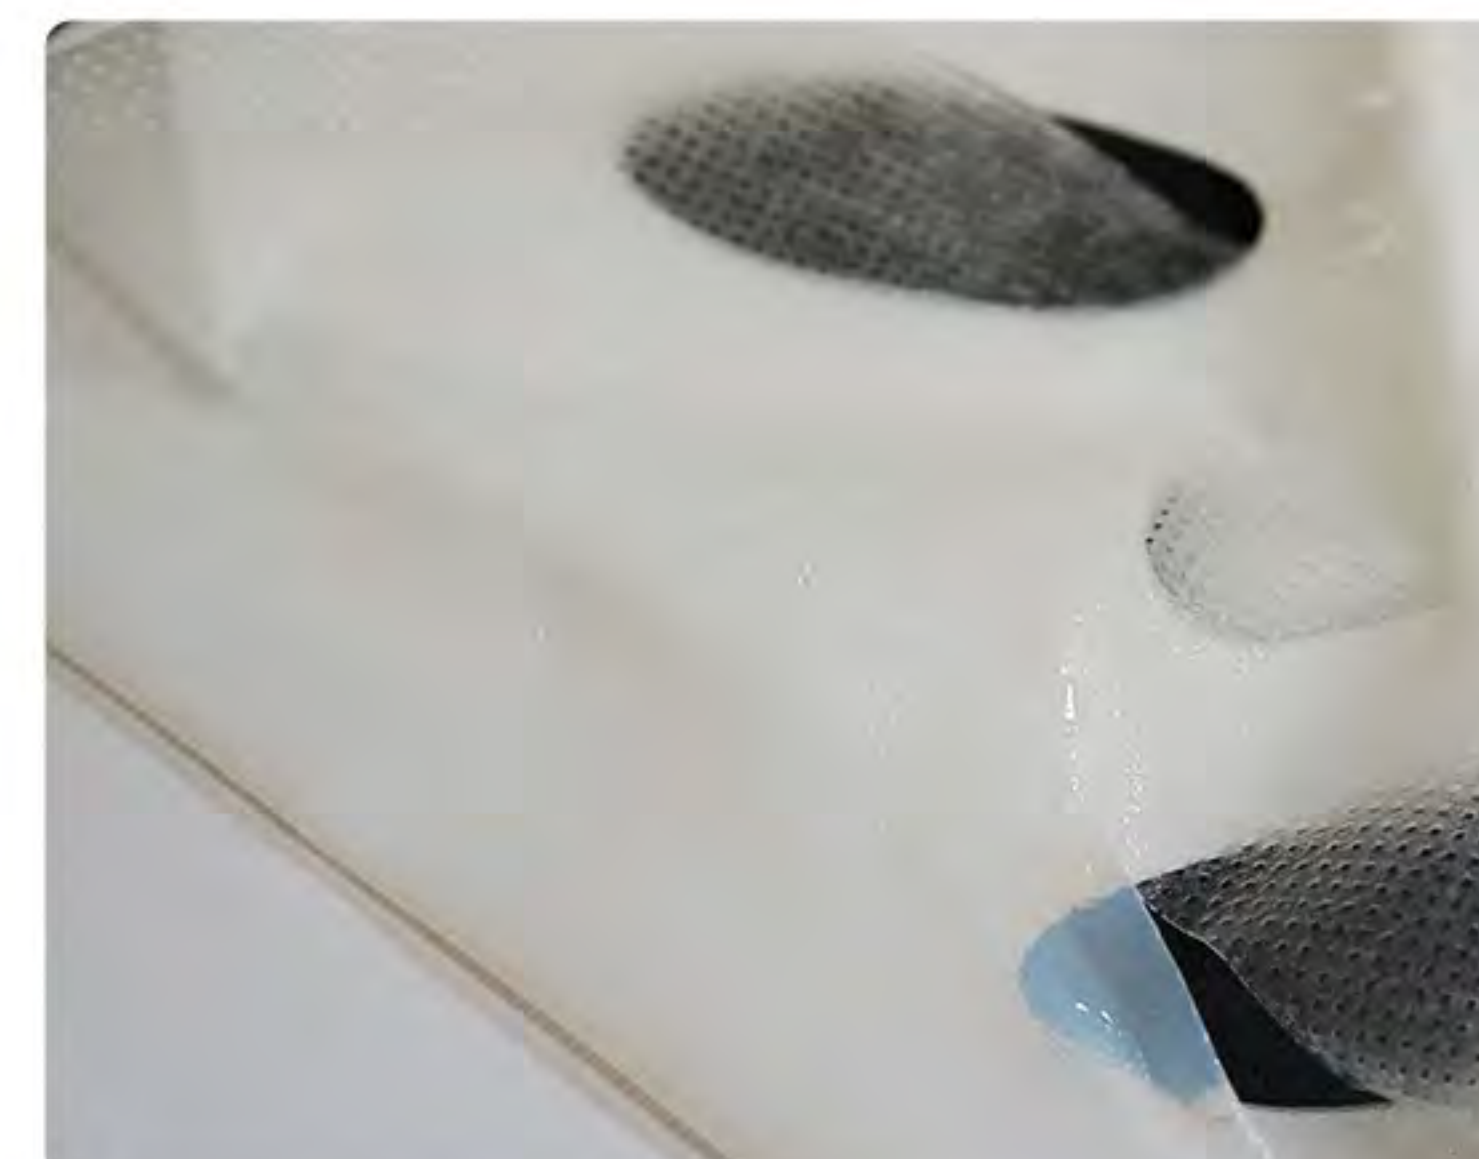

Bio cellulose sheet

- ✓ Superior skin moisturizing effect
- ✓ Can also be used for sensitive skin because made of hypo-allergenic ingredients.
- ✓ Because of It is good for adherence to skin, the sense of use is brilliant.

Pure bio-cellulosic patch with plants 3-dimensional net structure which made of fermenting by coconut.

The water-soluble hydrogel mask pack is effective for moisturizing with compressed essence and exhilarating adhesion.

Both white film and invisible film are covered to protect the coconut mask pack sheet. Remove these films before use.

Hard and tired skin is relax and  
moist time of day
